Federal Bureau of Investigation

Clarksburg, WV 26306

October 30, 2009

Mr. Y. M. Jiang  
Futronic Technology Co. Ltd.  
1016A Profit Ind. Bldg.  
1-15 Kwai Fung Street  
Kai Fong, N.T., Hong Kong

Dear Mr. Jiang:

The Federal Bureau of Investigation (FBI) Criminal Justice Information Services (CJIS) Division has completed a review of the following test data:

Submitting Vendor	Equipment
Futronic Technology Company, Ltd.	FS60 and FS61 Identification Flats livescan devices at 500 ppi without membrane

This review was conducted by representatives of the FBI and the MITRE Corporation's image processing laboratory located in Bedford, Massachusetts. Based on the results of this review, the FBI certifies that the equipment described above is in compliance with the following FBI CJIS Division's Integrated Automated Fingerprint Identification System Image Quality Specifications (IQS):

**Appendix F Specifications**

Please note, the certification process does not endorse one product over any other product and only demonstrates that the product meets FBI standards. Continued acceptance of the images created by an installed system, for retention in the FBI Master Fingerprint files, is contingent on the ability of the product to meet the IQS over time. As equipment can degrade, the FBI recommends that your company assist customers in the establishment of quality assurance programs and appropriate maintenance schedules for your products.

Please direct any questions regarding this certification to Mr. B. Scott Swann at (304) 625-2477.

Sincerely yours,

Jerome M. Pender  
Deputy Assistant Director  
Operations Branch  
Criminal Justice Information Services Division
