## Major features and benefit:

FS60 is a professional fingerprint scanner from Futronic with 3.2x3.0 inch (81.28x76.20 mm) scanning area. Its advanced optical system can capture a high quality 4 fingerprints image in less then 1.0 sec. It can also capture fingerprint in a 1.6x1.5 inch (40.64x38.10mm) scanning area to create a rolling fingerprint image. The high quality image makes it qualified to the FBI's EBTS Appendix F certification. The outlook design of FS60 is compact and robust. It is suitable for use in various environments and applications including border control, electronic ID, passport issuing and electronic election enrollment and identification. Fully programmable LEDs, buttons and acoustic buzzer provide the largest degree of freedom to system developers to design an intuitive user interface. All these features make FS60 the most cost effective and affordable solution for large scale fingerprint identification system.

## Specification:

Scanner Dimension Width: 4.86 inch (123.5 mm), Length: 6.00 inch (152 mm), Height: 3.35 inch (85 mm),

Roll Print Size 1.6 inch x 1.5 inch (40.64mm x 38.1mm)
Scanning Window Size 3.2 inch x 3.0 inch (81.2mm x 76.2mm)

Optical Resolution 500ppi with 1600x1500 pixels image output.

Image Quality FBI IQS IAFIS Image Quality Specification Appendix F

Interface USB 2.0

Weight 4.4 lbs. (about 2 kg.)

Operating Temperature 0° to +50° C, 0-90% Relative Humidity, non-condensing Housing ABS for outer shell and aluminum alloy internal frame

Workstation Computer Computer Pentium 4 1.7 GHz or greater with 1GB RAM and display resolution of

1280 x 1024 (1920x1280 preferable). With USB2.0 port (500mA)

Standard Features 10 red & green dual color LED indicators, 2 buttons and buzzer.

Power Powered by USB bus, no external power supply is required

Warranty
One year limited warranty
WinXP, Vista, Win7 and Linux

Certifications FBI, FCC, CE and RoHS Compliant
